WELCOME TO THE 2ND ANNUAL NATIONAL FINCH SOCIETY SHOW

RESERVATIONS AND SCHEDULE OF EVENTS

1. Be sure to make your room reservations as soon as possible. Call the Harrisburg Holiday Inn Central at area code 717-234-5021. Tell the clerk that you want Bird Show Rates; single, one bed one person \$50, double, one bed, two persons \$55, or triple, two beds, three persons at \$60. Give them your arrival date and departure date.
2. We are sure you will all want to attend the gala awards banquet. In order to do so please have your banquet reservations made by September 25th. The cost is \$15.00 per person. Your check, should be made out to C.P.C.B.S., and mailed A.S.A.P. to:
Dick Sharp, 2928 N. Wind Road, Baltimore, Maryland 21234.
3. NATIONAL FINCH SOCIETY ANNUAL MEETING. The annual meeting will be held at the Harrisburg Holiday Inn Central at 8:30 pm. on Friday, Oct. 4, 1985. See main lobby directory for location of meeting.
4. MEET THE OFFICERS AND OTHER MEMBERS OF NFS. The NFS will be sponsoring a hospitality room after the National meeting. Refreshments and snacks will be served. Let's show 'em - finch people do it better!
5. REGISTRATION OF BIRDS - Friday, 7:30 to 8:30 pm. Saturday, 8 to 10 am.
6. JUDGING will start at 10 am. Saturday, October 5, 1985. Remember, to compete for the beautiful Kaytee Best in Show Award, you must be a NFS member prior to commencement of judging. Membership applications will be available at the registration desk.
7. GALA AWARDS BANQUET - Will be held at 7 pm at the Holiday Inn Central.

DIRECTIONS * * *

FROM N.ENG: Take I-84 west to Scranton, PA. Take I-81 south. Exit 25 to I-83 south. 1st exit 30 to 22-west (Walnut St.) Follow to fork, bear right onto State St., bear left off Mem. Bridge to Walnut St. 3rd left is 3rd St. Follow to Chestnut, right, one block to Hal. Inn.

FROM SO. JERSEY-DEL. AREA: Take PA Tpke west to Harrisburg. Exit 19. take I-283 & I-83 to exit 23 Second St., follow to Chestnut St.

FROM WEST: Take PA Tpke to Harrisburg. Exit 18 to I-83 north to exit 23, Second St., follow to Chestnut St.

NATIONAL FINCH SOCIETY SHOW RULES

1. ENTRY FEE FOR EACH BIRD SHOWN WILL BE \$1.00.
2. ALL NFS MEMBERS RECEIVED CATALOGS BY MAIL. ADDITIONAL CATALOGS MAY BE PURCHASED AT THE SHOW AT A COST OF \$2.00.
3. THERE ARE NO CAGE RESTRICTIONS; HOWEVER, EACH CAGE SHOULD PROPERLY REPRESENT THE BIRD BEING SHOWN.
4. ALL SHOW TAGS MUST BE AFFIXED TO THE LOWER LEFT FRONT OF THE SHOW CAGE. TAGS MUST BE COMPLETELY FILLED OUT WITH DIVISION, SECTION, AND CLASS. TAGS MUST BE STAPLED CLOSED BY A STEWARD WHEN THE CAGES ARE BENCHED. MULES AND HYBRIDS MUST HAVE CROSSES LISTED ON THE OUTSIDE LOWER PORTION OF THE TAG (the portion of the tag that shows after it has been stapled closed).
5. CAGES MUST NOT BE MARKED IN ANY WAY. CAGES WILL BE CHECKED BY THE HEAD STEWARD AND HE MAY ASK THE EXHIBITOR TO ALTER ANY MARKINGS.
6. CAGES MAY HAVE WATERERS. BOTTOM OF CAGES SHOULD BE COVERED WITH SEED OR OTHER APPROPRIATE LITTER.
7. ENTRIES WILL NOT BE ACCEPTED AFTER JUDGING HAS BEGUN.
8. THIS SHOW IS OPEN TO ALL EXHIBITORS, HOWEVER ONLY NFS MEMBERS MAY COMPETE FOR THE KAYTEE BEST IN SHOW AWARD. NEW NFS MEMBERSHIPS WILL BE ACCEPTED AT ANY TIME PRIOR TO THE START OF JUDGING.
9. ONLY NFS MEMBERS WILL ACCUMULATE POINTS FOR WINS AT THIS SHOW.
10. ALL EXHIBITORS AND SPECTATORS MUST FOLLOW THE DIRECTIONS OF SHOW STEWARDS. THE GALLERY IS REQUESTED TO REMAIN SILENT AND NOT ASK QUESTIONS DURING THE JUDGING. JUDGES WILL, AS TIME ALLOWS, COMMUNICATE THEIR DECISIONS TO THE GALLERY.
11. EXHIBITORS AND SPECTATORS MUST ADHERE TO THE RULES OF OUR HOST CLUBS, THE MARYLAND CAGE BIRD AND CENTRAL PENNSYLVANIA CAGE BIRD CLUBS.
12. THE KAYTEE AWARD AND OTHER BEST IN SHOW AWARDS WILL BE PRESENTED AT THE BANQUET FOLLOWING THE SHOW.
13. THE JUDGES' DECISIONS ARE FINAL.

OFFICERS OF THE SOCIETY

NATIONAL SHOW JUDGES

Juanita Mc Lain judging:

Division 1 - Zebra Finches
 Division 2 - Australian Finches
 Division 3 - Indo-Pacific Finches
 Division 4 - Society Finches
 Division 8 - Finch Pairs

Conrad Meinert judging:

Division 5 - European Finches
 Division 6 - Finches of Africa
 Division 7 - So. Amer. Finches
 Division 9 - Mules and Hybrids
 Division 10- All Softbills

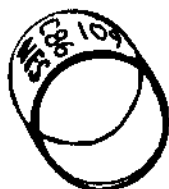

BEST IN SHOW WILL BE JUDGED BY BOTH JUDGES

The officers and show officials wish to welcome you to the Second National Finch Society National Show. We wish you the best of luck in the competition, and hope that if you are not already a member of NFS, you will join us today before the judging begins, so that you may compete for the BEST IN SHOW KAYTEE AWARD.

The National Finch Society thanks Dick Sharp, Bill Lumley, Brenda Geesey, D. David DeWald and, all the members of their host clubs for the help and support of this National Finch Show. We urge all our members who wish to show other types of birds to bring them along for the Maryland - Central Penna Show held in conjunction with our show.

The National Finch Society

1986 BANDS
FOR SHIPMENT ON
DEC. 26, 1985

1986 CLOSED ALUMINUM LEG BANDS

THE STANDARD NFS LEG BANDS FOR MEMBERS ONLY
Bands are available in standard NFS color of the year only

Size	for	Cost
A	smaller Waxbills, and Owl Finches	MAY BE ORDERED IN LOTS OF 10 BANDS AT \$1.25 PER LOT
B	Cordon Bleu, Firefinch, and Lavender Finch	
C	Zebra Finch, Gouldians, Stars, Heck's Grass Finch, Cutthroats, Parrot Finches, etc.	
D	Chestnut Breasted, Yellow Rumped, Pectoralis	
E	Society Finches, Muns, Firetails, Diamonds	
G	Larger Waxbills and Canaries	
J	Yorkshires, Norwich, Pekin Robins, etc.	
K	Java Rice Birds, Indian Shama, etc.	
L	Quail, Doves, and other softbills	

NFS bands may be ordered in lots of 10 bands, consecutively numbered at 1.25 per each lot. \$1.00 shipping and handling should be included with each order, whether 10 or 100 bands are being ordered. Bands will be shipped within 30 days of receipt of your order, although most orders will be shipped the same week as received. There is no color choice. The standard NFS color of the year will be used. Each band will have stamped: "NFS", the band size code, year and number. All numbers will be recorded by the NFS band secretary for permanent record.

TO: NFS BAND SECRETARY, C/O Russ Armitage, 345 Boston Road, Middletown, CT. 06457. Payable to NFS. Please send me the following bands. (Use multiples of 10 only.)

KAYTEE

THE REAL BEAUTY OF NATURAL FRUITS AND VEGETABLES

AMERICA'S
FINEST PREMIUM
TREATS WITH
OVER 50%
REAL FRUITS AND
VEGETABLES

Three natural treats from Kaytee that combine the nutritional benefits of real fruits and vegetables with fresh, clean seeds offering the eye-appealing color and palatability small birds and hookbills love.

Each Kaytee REAL Fruit and Vegetable Treat has been carefully formulated for maximum nutritional value. Extra vitamins and minerals are available through a natural air-drying process that turns fresh fruits and vegetables into convenient, highly palatable treats.

But the real beauty in each Kaytee treat is that birds get all the extra

nutritional value without the danger of rapid spoilage and mess associated with feeding fresh fruits and vegetables.

Kaytee REAL Fruit and Vegetable Treats are carefully packaged for increased product freshness and protection and are available in a variety of small and bulk quantities.

Ask for Kaytee Forti-Diet⁵ formulas for small birds and hookbills packed with the extra vitamins, minerals and amino acids for superb conditioning.

NATIONAL FINCH SOCIETY
STANDARD OF JUDGING

1. A NFS Panel Judge shall conduct himself or herself in a professional manner at all times. He or she will judge each bird on its merits and by species Standards as then available. Judges will inform the gallery of the techniques used to judge particular species whenever possible.
2. A NFS Judge will do an overview of all the birds entered. He will then decide if additional classifications are necessary.
3. A NFS Judge will disqualify any bird entered after the judging has begun.
4. A NFS Judge will work with his stewards in an educational manner.
5. A NFS Judge will judge each bird entered on Conformation, Condition, Color, Department and Staging, in keeping with the then available Standards of the Society.
6. A NFS Judge will adhere to the adopted rules and the Judges Handbook of the Society.
7. A NFS Judge may at his discretion withhold any award when he feels that size of the entry or condition of the bird does not warrant an award.
8. A NFS Judge may call back second or third place birds to compete in sectional or divisional competition.

THE KAYTEE AWARD

Through the generosity of the Kaytee Products company, The National Finch Society will be offering the coveted Kaytee Award for best bird in show at our National Finch Society National Show. This beautiful award will be offered only to NFS members.

THE OFFICIAL ZEBRA FINCH STANDARD
as adopted by the National Finch Society
September 1984

CONDITION: 20 POINTS

The condition of the Zebra is of paramount importance. The bird must be in top show condition: immaculate with no soiled or frayed feathers. There must not be pin feathers. Missing toes, nails, or damaged or missing feathers are show faults and will be deducted in point count heavily.

CONFORMATION: 50 POINTS

(Broken down as follows)

HEAD AND BODY: 25 POINTS. The head should be nicely rounded and not flat (snaky). The beak should be compact and bold. The body should represent the Zebra as a full and robust bird. The bird should not appear thin or snaky. The bird should however not be too full in the lower chest area as to give the appearance of a lumped chest.

WINGS: 15 POINTS. The wings should be carried evenly, should not droop and cover the flanking. They should blend into the back smoothly and meet at the root of the tail. They must not be crossed at the root.

TAIL: 10 POINTS. The tail shall be carried to follow the back line, and must not droop or be carried high. The tail should be compact, but not short for the body.

STANCE: 10 POINTS.

The Zebra should have a proud stance on the perch, holding the chest well off the perch. The bird should be relatively calm on the perch and should exhibit a bright personality.

MARKINGS AND COLORATION: 20 POINTS

COCKS: The chest barring must be distinct with not less than 1/8" width, and of complete evenness. The side flanking should be dramatic, and decorated with clearly distinct round white spots. The beak must be coral red with feet and legs of deep pink. All other markings where applicable must be clear and distinct.

HENS: The hen bird will have less cheek patch, chest barring, and side flank markings. The beak will be more pale. Any cock markings on a hen are show faults.

COLOR AND MUTATION STANDARDS

NORMAL COCK: Eyes should be dark and beak bright coral red. Chest bar must be jet black, and the breast and throat area evenly zebra striped. The ear markings should be black and distinct. The flanking should be of rich reddish brown with clear white spots. The cheek patch should be distinct and of rich dark orange. The underparts will be white with fawnish shading about the vent and thighs.

NORMAL HEN: Same as for the cock except no cheek patches or flanking. Beak will be more pale. A slightly lighter shade of normal gray is acceptable.

WHITE COCK AND HEN: Eyes dark, beak red. Hen's beak to be more pale. Coloration to be pure white all over. Any hazing will be faulted.

FAWN COCK: Eyes dark, beak red. Feet and legs deep pink. Deep fawn coloration on the head, neck and wings. The throat and upper chest to be light fawn. Zebra markings as in the Normal cock. Tear drop, cheek patches, tail and flankings as in Normal cock.

FAWN HEN: Same shade of fawn as in the cock, otherwise Normal hen properties.

SILVER COCK: The tail should be dark with white barring. The overall color should be silvery gray with no fawn hazing. Tear and chest bar should be of same coloration with all other properties being more pale and less distinct than in the Normal cock.

SILVER HEN: Same as other hens, but silver gray in color.

CREAM FAWN COCK: Same as Normal cock except all shades from deep cream to pale cream. Tear markings should match chest bar, and tail will be cream as in body with white barring. Cheek patch more pale than in Normal cock.

CREAM FAWN HEN: Same as in other hens except cream in color.

PIED COCK: As in Normal cock except for ideally 50% Normal gray and 50% white. Symmetry of marking will be more important than the percentage of color mix. Complete absence of cock markings will be faulted.

PIED HEN: As in other hens except for pied markings as in Pied cock.

CHESTNUT FLANKED COCK: All markings as in Normal cock except for ideally pure white in place of Normal Gray. Tear marking and chest bar same shade. Cheek patch may be cream, and tail gray with white barring. Flanks must be rich and distinct.

CHESTNUT FLANKED HEN: As in other hens except White. Slight head markings are acceptable.

PENGUIN COCK: As in Normal cock except upperparts from beak to vent will be pure white without a trace of barring. The head, neck and wings will be light, even, silver gray. The flights, secondaries and coverts will be edged with a more pale shade of gray giving a laced appearance.

PENGUIN HEN: As in other hens but cheek patches will be white. There must be no barring on the chest.

FLORIDA BLUE COCK: As in Normal cock except overall appearance of steel gray where the Normal would be gray. Tail will be lighter in coloration than the Normal cock.

FLORIDA BLUE HEN: As in other hens except for coloration, as in cock, may be more dilute.

BLACK BREASTED COCK: As in Normal cock except ideally the area from the chest bar upward to the beak will be of black coloration. Some zebra barring will be apparent but will be broken. Tear markings

will be deep black and may blend into the black of the throat. The overall coloration may be a more charcoal gray.

BLACK BREASTED HEN: As in other hens except for broken pattern in the Zebra striping of the throat and chest. A more pale gray or blotchy black may appear on the chest.

CRESTED ZEBRAS: Must be true to type. The ideal is a full crest of even and neat appearance.

The National Finch Society recognizes that the Silver and Cream mutations appear in dominant and recessive factors. These mutations within their type will be judged in the same classifications.

Some Common Faults In Type and Marking Shape.

A. HARNISH

THE OFFICIAL STANDARD OF
THE SOCIETY FINCH (BANGALESE)

as adopted by
THE NATIONAL FINCH SOCIETY
September 1984

CONFORMATION: 50 POINTS

(Broken down as follows)

HEAD AND BODY: 20 POINTS. The head round from top of beak to the nape of the neck. The neck should be short, nicely rounded. The back of the neck should flow smoothly from the head to the back. A nipped neck is faulted. The beak should be in proportion to the head. Eyes should be set well back from the beak. The back should be slightly rounded and the bird should be sleek without undue fatness.

TAIL: 15 POINTS. The tail should be one and one half inches in length. It should be clean, and should follow the back line off the body. It should not droop or rise from the back line. There should be no missing feathers.

WINGS: 15 POINTS. The wings should be compact, tips meeting at the root of the tail. There should be no missing feathers.

CONDITION: 20 POINTS

Missing toes, nails, or feathers will be faulted. Nails should be of proper length. Eyes should be bright. Feathers should have sheen, and must not be ragged or frayed.

COLOR AND MARKINGS: 20 POINTS

SELF: Self birds are Chocolate, Fawn, or White. In the case of Chocolate and Fawn, the Society must show the self color on the head and wings and at least halfway down the chest. These self colors should be rich, and there should be no white feathers in these areas. Ideally there should be no white feathers present around the base of the beak. White selfs should be solid white without "dusting" or any colored feathers.

PIED: (Chocolate and White - Fawn and White). These birds should show approximately 50% self color and 50% white. Symmetry of marking is of importance. There are both strong colored pieds and so-called dilutes. The dilute birds show a more pastel self color.

CRESTED: The crest is considered under color and marking points. The crest should be far forward on the head, large, and as close to a single crest as possible.

STANCE OR POSITION: 10 POINTS

The Society Finch should stand proud on the perch at a 45 degree angle. The society should have a bright personality and should not be unduly nervous. Societies that roost on the perch will be faulted.

ABOUT YOUR NATIONAL SHOW JUDGES

JUANITA MC LAIN: Judging, Australian and Indo-Pacific Finches. Juanita is a well known aviculturist from St. Petersburg, Florida. She has been a judge and active finch fancier and breeder for many years.

Juanita is President of the Suncoast Avian Society and is active in many other bird clubs on the Florida coast. In Florida, where large finch entries are the rule at shows, Juanita is a highly respected judge.

CONRAD MEINERT: "Connie" is one of the most experienced judges of finches and softbills in the country today. He has judged the National Cage Bird Show many times and when exhibiting, has won the Kellogg several times.

His interest in aviculture is broad spectrumed, having personal knowledge of finches, softbills, parrots, and love-birds. He is a Panel Judge of the National Cockatiel Society. He will be judging European, African and South American Finches as well as all softbill entries.

PRESIDENT'S MESSAGE

by William G. Parlee

Back in April of 1984, Nancy Reed wrote an article for the National Finch Society Bulletin entitled "WELCOME TO THE NATIONAL FINCH SOCIETY". In this article Nancy proclaimed "what's a nice Cockatiel girl like me doing in a Finch and Softbill club like this". She went on to tell how she got started in birds. She first caught the bird disease from finches and soft-bills back in 1968.

Throughout this article, Nancy mentioned the need for a national organization to promote finches and softbills. She pointed out how many other types of caged birds had their "own" organizations: to publish newsletters, stage shows, adopt Standards, and in general to promote each species. She further stated that "Finches and Softbills offer the greatest challenge today in aviculture".

I agree with Nancy wholeheartedly, and it looks like many other aviculturists feel the same as well. At the time of the article in 1984, the NFS had about 35 members in just the New England area. Today the NFS has over 250 members in 34 states and 23 affiliated clubs throughout the United States. We've come a long way! We have also had the growing pains that go along with such expansion. Most of our members have been very kind, and have put up with our problems. Luckily we have not had too many.

The National Finch Society published its first quarterly bulletin in April of 1984, and changed to a bimonthly format in January of 1985. Our bulletin has been rich with finch news and educational articles. Particular thanks go to Terry Dunham, Wanda Deacon, and Tom Road, who have been frequent contributors.

Our "National" ball got rolling with the help of Dr. Val Clear, whose help to this society has been immeasurable. Val's articles in ACBM proclaimed to all finch fanciers that a national organization for finches was here, and here to stay!

The NFS held its first annual NFS National Show in East Hartford, CT on Saturday, October 26, 1984. Previous to this show, the largest number of finches to be exhibited at a New England show was just 57 entries. We at NFS had a dream: a show with 100 finches. We hoped against hope that

this could actually happen. Well, when all were entered and judged, a Mynah bird topped the entry of 156 finches and softbills. We were all ecstatic! It is with this same dream that we look to Harrisburg and 1985 for our second annual show, and an entry of over 200.

As 1985 got underway, we started our NFS band program with the help of Dr. Val Clear and Russ Armitage, our Band Secretary. NFS now offers traceable bands for finches and softbills in nine different sizes. In our first year of distributing bands we have doubled the orders we had anticipated.

With the help of Al Decoteau, we worked on the establishment of a Judges Panel. We selected the very best finch judges we could find, both here and abroad. We established procedures for training and apprenticing new judges to assure a panel that will remain strong. We are proud to have our own handbook that standardizes the way finches are judged across the country at our affiliated shows.

In November of 1984, the NFS had a booth at the National Cage Bird Show in Chicago. During that show, we had our first truly "national meeting" for members. It was a lively meeting with much give and take. That meeting assured us that the NFS was definitely on strong ground and sure to prosper with the interest shown by members and prospective members. The NFS will again in 1985 have a booth at the National Cage Bird Show in San Antonio, Texas on November 15, 16, 1985.

The National Finch Society National Show Catalog which you are reading, has the first full color cover of any catalog by any organization. Thanks goes to Terry Dunham for the beautiful Gould mutations depicted on the front and back covers.

We have many goals--some of which have been realized, some of which are yet to become reality. We have many decisions to make on the path our organization will follow. How we evolve is primarily up to you. We said in 1983 that we need your help and we still do. We need articles for our bimonthly bulletin, we need your input at National meetings; we need your ideas and comments.

We are pleased to have a member who asks for help. But we are even more pleased to have a member who asks to help!

I, and the entire board of directors, look to 1986 with much hope for an even better National Finch Society.

STANDARD OF PERFECTION
FOR THE LADY GOULDIAN FINCH
AND ITS MUTATIONS

The National Finch Society does not currently have a Standard for the Lady Gouldian Finch. When it is judged, the basic standard for all finches is used. The need for a standard has been long recognized. We first started in 1984 to query Gould breeders for their input into this standard. We did not receive the needed input at that time.

This past August at the AFA convention in San Francisco, Al Decoteau appointed a blue ribbon panel to study the prospect of adopting a standard for the Gouldian for NFS. Dr. Val Clear was asked to head the committee. Cecil Gunby, and Roger O'Connell also volunteered for the task.

In order for us to adopt a complete Standard for the Gould and its mutations, we must have the help of the breeders of these mutations. We ask that you explain the mutations and give us their faults. Spend some time and jot your ideas down on a piece of paper and send it along to Dr. Clear at 1001 Martin Dr., Anderson, Indiana 46012.

To adopt a standard we must have your help. The progress on the standard will be checked at all national meetings. We are not going to let this go. Think of it this way, NFS is going to have a standard for the Gould and it might as well be adopted with your ideas being heard and your knowledge having had an impact on the adopted standard.

Propose your own standard and mail it to Dr. Clear. We can assure you that your thoughts will be considered by the panel.

AWARDING OF POINTS

Exhibitors automatically receive points for sectional and divisional winners at each show. These points are decided by the number of birds shown at a show. There are major and minor shows. A minor show is a show with 75 or less entries. A major show has 76 or more entries. Championship points are issued in accordance with the chart below.

	<u>MAJOR SHOW</u>	<u>MINOR SHOW</u>
Sectional 1st place	2 pts.	1 pt.
Divisional 3rd place	6 pts.	3 pts.
Divisional 2nd place	8 pts.	4 pts.
Divisional 1st place	10 pts.	5 pts.

NOTE: In the National Finch Show, Section becomes
Division and Division becomes SHOW.

Any NFS member may become a Champion Exhibitor by obtaining 25 points in a given calendar year under at least two different judges. Any member who feels that this requirement has been met may submit a list of wins to the NFS home office for verification.

EXHIBITORS EXCELLENCE AWARD: This award goes to any NFS member who has acquired 100 exhibition points. Championship points are carried over from year to year in compiling these points.

—THE A TEAM

**TEAM UP
AVITRON™ AND
AVIMIN™ IN
YOUR BIRD'S
DRINKING
WATER AND
HELP ASSURE
COMPLETE,
VITAMIN/
MINERAL
INTAKE.**

Avitron Delivers Eight Essential Vitamins Plus Other Vital Nutrients.

These can be critical. Because birds use vitamins rapidly. But can't always rely on seed to supply their needs.

Important B Complex vitamins, for example, are found in seed hulls. Unfortunately, the hulls usually end up on the bottom of the cage... along with the B Complex vitamins. A lack of B vitamins may result in nervous and digestive disorders, curly toe paralysis and weakness.

Some seed mixes, on the other hand, are just vitamin poor. They lack quality and proper seed variety. And even the very best can lose their potency during storage. AVITRON helps make up for this. And aids in preventing problems such as impaired vision, poor muscle development, unhealthy skin, soft eggshells, rickets and excessive bleeding due to vitamin shortages.

Avimin Supplies Six Essential Minerals In Water Soluble Form.

That makes AVIMIN more effective and convenient than most other mineral supplements such as coffee, bone blocks and powders. Because the bird gets a balanced variety of minerals every time it drinks.

AVIMIN helps promote strong bones, sturdy eggshells, healthy skin, balanced body fluid and muscle tone. And aids in reducing the possibility of anemia, rickets, gutters and slipped tendons due to mineral deficiency.

So why let your bird's nutrition be in doubt? Team up AVITRON and AVIMIN in its drinking water. And be assured that your bird is getting the VITAMINS AND MINERALS it needs for good health and vitality.

BEST IN SHOW AWARDS

THE KAYTEE AWARD FOR BEST IN SHOW

SECOND AND THIRD BEST IN SHOW: NFS TROPHY

WINNERS PLACED ONE THROUGH TEN IN SHOW WILL RECEIVE NFS STREAMER ROSETTES.

NOTES FOR AFFILIATED CLUBS: Affiliated shows are asked to use the classifications as dictated by the National Finch Society in their show catalog. They may be abbreviated. However, all divisions then would become sections and should be maintained. Abbreviations of the classifications are allowed within each section. Awards are up to the individual club; however, a first place trophy in each section is suggested. National Finch Society Patronage Placques will be awarded for the 1st, 2nd, and 3rd Best Finch in Show.
